

RSS FEED and E-MAIL NOTIFICATION information for Sun 'N Lakes web site

If you are familiar with RSS feeds and want to subscribe to the Sun 'N Lakes feed, click on the link that looks like the image below. The link can be found at the top of either the Home page ([index.html](#)) or the News page ([news.html](#)).

The second option offered is to subscribe to an e-mail alert that will automatically send a message to your e-mail address notifying you that an update has been made to the Sun 'N Lakes web site. To sign up for the e-mail alert, click on the link at the top of either the Home page ([index.html](#)) or the News page ([news.html](#)) that looks like the image below or simply visit this link: http://feedburner.google.com/fb/a/mailverify?uri=SunnLakesCommunityNews&loc=en_US

That will take you to a web page that looks like:

A screenshot of a FeedBurner "Email Subscription Request" form. The form has a white background with a blue border. At the top left is the FeedBurner logo. The title "Email Subscription Request" is in bold. Below the title, it says "Thank you for your request." There is a text input field labeled "Your email address:". Below the field, it says "...will receive a verification message once you submit this form. FeedBurner activates your subscription to 'Sun 'N Lakes Community News' once you respond to this verification message." There is a blue "mailto:" icon. At the bottom, it says "To help prevent spam, please type the text you see in the box above:" followed by a text input field containing the word "meltyo" and a "Complete Subscription Request" button. At the very bottom, there is a small copyright notice: "©2004-2009 Google (Terms of Service • Privacy Policy)".

Enter your e-mail address and type in the distorted characters you see in the box and click "complete subscription request".

You will get an e-mail message from Feedburner (make sure you check your "spam" box also if it doesn't show up in your regular Inbox). In that message there will be a link to click on to confirm that you want to subscribe to updates. You will not receive updates until you finish that step.

After you have successfully signed up:

If there are any changes on the Sun 'N Lakes web site where information has been added, you will receive an e-mail from "Sun 'N Lakes Community News". Again, make sure you check your "spam" box in the event that it gets delivered there. There will be a brief note as to what the new information is and you have the ability to click the headline that is in blue to go directly to the web page that contains the rest of the story. The information you receive in your e-mail will be simply a one line description. To read the entire item you must visit the web site. An alert will not be sent if a picture changes or other similar non-significant changes or updates occur.

Welcome to Sun 'N Lakes web site. Please click **HERE** to receive free e-mail updates when something has been added to this web site. (For more detailed information, please click **HERE**.)
